

## ABS & TRC

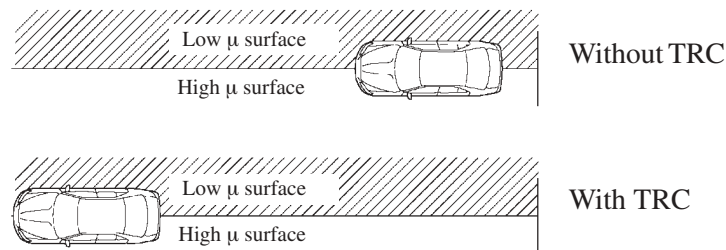

The ABS and TRC are standard equipment on all models.

- The ABS is provided as standard equipment on all models to ensure the vehicle's emergency maneuvers and stability.
- The TRC is provided as standard equipment on all models to ensure the proper drive force and to achieve excellent straightline performance and cornering stability on slippery roads.

### Conceptual Drawing

### Acceleration Performance (striding over high $\mu$ surface and low $\mu$ surface)

### Startoff stability on a slippery surface
