

## DIFFERENTIAL

### DESCRIPTION

- The IS200 comes with a conventional differential as standard equipment. A helical gear type TORSEN\* LSD (Limited Slip Differential) is optional equipment on the manual transmission model.
- The differential is supported by a rear suspension member via rubber mounts which deter vibration and noise from being transmitted to the body.

**Conventional Type**

**LSD Type**

\*: TORSEN is ZEXEL's registered trade mark.

### ► Specifications ◀

Item		Manual Transmission	Automatic Transmission
Differential Gear Ratio		3.909	4.100
No. of Teeth	Drive Pinion	11	10
	Ring Gear	43	41
Ring Gear Size mm (in.)		190 (7.48)	←
No. of Differential Pinion		2, 8*	2
Oil Capacity		1.05 (1.14, 0.96)	1.05 (1.14, 0.96)
Liters (USqts, Imp. qts)		1.00 (1.08, 0.92)*	
Oil Viscosity		SAE 85W-90	←
Oil Grade		API GL-5	←

\*: TORSEN LSD
